

# BIG METAL STAMPING FACTORY FOR DIXON IS BEING CONSIDERED

PYROGRAPHY ART CO. CONTEM-  
PATES PURCHASING PLANT

## TO MOVE IT TO DIXON AT ONCE

Four Carloads Of Machinery May  
Be Installed In Old Col-  
lege Building

If the present plans of the direc-  
tors of the Pyrography Art Co., of  
Dixon materialize, Dixon will have  
another industry of considerable im-  
portance, and within a very short  
time. The local manufacturing com-  
pany contemplates buying the ma-  
chinery and manufacturing plant of a  
defunct manufacturing firm in  
Plano, Ill., which is elaborately  
equipped for the manufacturing of  
all sorts of material turned out by  
metal stamping machines, particu-  
larly toys, etc.

The stamping factory is capable  
of a big output and there is no small  
quantity of business waiting for it  
even now and the Dixon men, if  
they finally conclude to go into the  
venture, want to have the outfit  
shipped to Dixon and installed at  
once, within two weeks at the latest  
in order that they may turn out  
some goods for the Christmas trade.  
There are four carloads of machin-  
ery to be shipped and they will be  
set up in the south end of the big fac-  
tory building they occupy on the old  
college campus, if the deal goes  
through. Mr. Leydig will go to Plano  
this week to settle the matter. It  
was stated today by an officer of the  
company that had hopes of having  
the deal go through successfully this  
week.

The addition to the plant would  
necessitate the employment of about  
35 more men and would add a new  
and important industry to Dixon's  
list.

# MARKER FOR DOUGLAS HIGHWAY IS SELECTED

WILL BE WHITE DIAMOND WITH  
LETTER "D" IN ITS  
CENTER

The official marker for the Dou-  
glas highway, which will traverse this  
county from north to south, will be  
a white diamond with the letter "D"  
on the inside of the diamond. The  
county commissioners of highways,  
to whom was referred selection of  
the route and a marker, have sent  
their report to the state highway  
commission, therefore the above de-  
scribed marker will be the official  
one. These markers will be placed  
upon telephone poles along the pro-  
posed route.

# Rochelle Farmer Killed When Auto Turtled At Curve

Speeding Motor Car Overturned  
Killing One And Injur-  
ing Others

Rochelle, Nov. 8.—August Ander-  
son's neck was broken when his auto-  
mobile overturned on Saturday after-  
noon while rounding a curve at the  
outskirts of this place. The machine  
was said to have been running at a  
high rate of speed when the accident  
occurred. Two other occupants of the  
car were injured, but not seriously.  
Anderson died a half hour after being  
received at the local hospital.

Anderson accompanied by two men  
was returning from West Brooklyn,  
when in attempting to turn a curve at  
a rapid rate of speed the car was over-  
turned. Anderson was rushed to the  
hospital but at no time was there any  
hope that he might survive. His com-  
panions received bruises of a minor  
nature. The Anderson family reside  
on the Turkington farm near here.  
He carried a life insurance policy of  
\$5,000, and leaves a widow and four  
children.

# WHOOPIING COUGH TO BE QUARANTINED NOW

STATE BOARD OF HEALTH IS-  
SUES NEW REGULATIONS  
FOR DISEASE.

## LIST OF QUARANTINED AILMENTS

The notices of the new restrictions  
that have been declared on whooping  
cough by the state board of health  
have been sent out to health officers  
all over the state. Hereafter the dis-  
ease is to be treated like smallpox  
and other serious contagious diseases.

All cases of whooping cough in the  
state must be reported to the local  
health authorities, who are compelled  
to put up placards on the premises  
and establish quarantine. For a pe-  
riod of eight weeks from the date of  
the first "whoop," or until one week  
after the characteristic whoop has dis-  
appeared, the patient must be kept in  
the house or yard and excluded from  
coming in contact with any other chil-  
dren.

**Children Quarantined**  
Other children in the same family  
cannot go to school or other places  
where they will come in contact with  
children. Parents and other adults in  
the family may go about their usual  
business. When the quarantine is  
raised, the premises must be disin-  
fected.

Until last February smallpox was  
the only communicable disease for  
which there were quarantine regula-  
tions. The state board now compels  
quarantine for measles, chickenpox,  
infantile paralysis, typhoid fever and  
typhoid "carriers," diphtheria, scarlet  
fever, etc.

## FAIR HAD AUSPICIOUS START

Rosbrook Hall Filled to Capacity for  
First Night of Bazar.

The annual bazar of St. Patrick's  
Catholic church had a most auspicious  
opening Saturday night, and the  
indications are that the fair will be  
liberally patronized every night this  
week. The event started with a chick-  
en pie supper at the K. C. hall, at  
which over 300 were fed, and later  
Rosbrook's hall was crowded to cap-  
acity with boosters for the fair. The  
dance floor was crowded and the mu-  
sic by the Marquette orchestra which  
will play this evening and tomorrow  
night, was greatly enjoyed.

the southern part of the city, with  
deposits of \$900,000, closed its  
doors today. It was not a member  
of the Clearing House.

arrested Saturday while under the  
influence of intoxicants, was given a  
hearing before Justice Grover Ge-  
hant and was fined \$3 and costs  
and being without funds, was sent  
to the county jail.

# ARMY MEN PREPARED TO TURN MEXICAN LINE INTO BATTLEFIELD.

AMERICAN ARTILLERYMEN AND MEXICAN SOLDIERS ON THE BORDER

(Reports from Major General Frederick Funston to the war department on the border situation around Douglas and Agua Prieta, as it existed upon his arrival at the former place to take command of the American forces, did not allay anxiety on the part of the administration for the safety of Americans on the border. While General Funston reported that the first attack by General Villa's forces on Agua Prieta was repulsed with heavy losses for the Villistas, he made it plain that many bullets were falling into the Arizona town of Douglas and that it would be wise to grant emergency authority to the American forces to cross the international boundary if necessary to protect the border against invasion. It is not understood that General Funston asked for instructions to cross the border, but that he considered it wise to have discretionary authority to do so in an emergency. Earlier reports said that 300 men of the United States army, with field artillery, were placed within a few feet of the Mexican boundary, ready to interfere if an attack on the Carranza garrison of Agua Prieta, Sonora, by the Villa army should result in shooting into American territory. Brigadier General Thomas F. Davis, commander, said he would take every precaution to prevent any firing into Douglas. "I do not propose to see an American town shot up," he said. General Davis issued instructions to residents on the American side of the boundary to keep within doors, get behind adobe walls and not to trust to wooden barriers to keep out bullets.)

(Associated Press)  
Springfield, Nov. 8.—Gov. Dunne  
today said that he will issue a call for  
a special session of the legislature  
promptly, probably for next Monday,  
and that he will make the call broad  
enough to permit the legislature to  
act on home rule for Chicago.

CAR SEEN STANDING ALONG

## LOCAL OFFICERS WERE CALLED

A deserted touring car that was  
left standing along the side of the  
roadway on the Polo road a mile  
and a half north of this city from  
Saturday night until this morning,  
aroused the suspicion of residents  
in the neighborhood and the matter  
was reported to the officers. Deputy  
Sheriff Frank Schoenholz went out  
this morning and looked over the  
car and found it was a Case touring  
car and the license number it bore  
was Y3684. The report of licenses as  
issued by the Secretary of State  
Stevenson was looked up and it was  
found that the number must have  
been issued during the month of Oc-  
tober as the September list did not  
contain numbers that high. A tel-  
egram was sent to Springfield asking  
to whom the number Y3684 had  
been issued and word was received  
that such a number had been issued  
to Amos Grivo of Polo. Before the  
officers had time to get in commu-  
nication with Mr. Grivo a telephone  
message was received that Polo par-  
ties had come after the car and had  
taken it to Polo. The car had be-  
come disabled and it had been left  
along the road.

# DeKalb Man Looks For Missing Wife At Cement Colony

Woman Supposed To Have Come  
Here With Her Af-  
finity

Search was made in this city Sat-  
urday afternoon in the foreign col-  
ony near the Sandusky cement plant  
for the wife of Peter Delick, an Aus-  
trian from DeKalb, it being thought  
she had come to this city but no  
trace of her could be found here.

Delick can not speak good English  
and was accompanied to this city  
by H. Poptie, a general investigator,  
who speaks several languages. It ap-  
pears that Delick's wife became infat-  
uated with a man by the name of  
Nick Drogavitch and on September  
4 the couple quietly slipped away  
from DeKalb, Mrs. Delick taking  
along about \$200 that had been laid  
away for a rainy day. The couple  
were traced to Davenport, Ia., and  
on investigation there it was claim-  
ed that they had come to Dixon  
about a month ago. If the couple  
were here they did not stay long, as  
no trace can be found of them  
now.

# FORDHAM MAY HELP ORGANIZE NEW BANK

DIXON MAN CONSIDERING PRO-  
POSITION OF ROCKFORD  
BANKING MEN.

## PLANS ARE ONLY TENTATIVE

Rockford newspapers announced  
Saturday evening and Sunday morn-  
ing that a group of capitalists of that  
city were planning the organization  
of a new bank and that H. L. Ford-  
ham of Dixon would be associated  
with them in the new institution. Mr.  
Fordham, who was formerly cashier  
of the Union State bank in Dixon and  
of the Compton bank, now in the real  
estate business in Dixon, stated to a  
Telegraph reporter that the plans  
were purely tentative as yet, that the  
state auditor had not granted a com-  
mission to start a bank, that nothing  
had been done toward organization  
and that there was nothing definite  
to be told.

Mr. Fordham admitted, however,  
that he had been approached by the  
Rockford people shortly after he left  
the management of the Dixon bank,  
and that he had been seriously consid-  
ering their proposal.

The plan, as outlined to the Tele-  
graph man today, is to build a bank  
building on a prominent corner in  
Rockford. The men interested in the  
movement are wealthy and influen-  
tial. Mr. Fordham is to be president  
and in complete management of the  
entire institution. His son, Frank  
Fordham, will also go into the Rock-  
ford banking institution if the deal is  
completed.

John H. Camlin and B. J. Knight  
are the two Rockford men who are  
mentioned with Mr. Fordham as pro-  
moters of the new enterprise.

If the plans mature the building,  
which will be on the corner of Main  
and Mulberry streets, will be built  
this winter and the bank will be start-  
ed in the spring. Mr. Fordham would  
dispose of his business interests here.  
He is now president of the Dixon  
Realty Co., vice president of the Uni-  
on State bank and financially inter-  
ested in various commercial enter-  
prises.

# OVER THREE BILLION BUSHELS OF CORN IS ESTIMATE 1915 CROP

GOVERNMENT REPORT SHOWS  
UNPRECEDENTED HARVEST  
IN UNITED STATES.

## ONE-FOURTH OF WORLD'S WHEAT

Oats, Barley, Rye, Hay, Tobacco, Rice  
and Peaches Break All  
Records.

(Associated Press)

Washington, Nov. 8.—Unpreced-  
ed harvest returns with many crops  
showing production records which  
may remain unbroken for years, are  
shown in the department of agricul-  
ture's November report made from  
censuses of the country Nov. 1 and  
issued today.

Wheat, with a production of almost  
one-fourth of the world's output this  
year, has established a record never  
before reached in any nation. The  
American harvest this year exceeds  
the previous record production in this  
country by over 110,000,000 bushels.

Oats, barley, rye, sweet potatoes,  
hay, tobacco, rice and peaches have  
been produced in quantities never be-  
fore harvested in a single year in the  
nation's history.

With higher prices paid to farmers  
because of European war influences,  
the crop this year will be the most val-  
uable ever grown notwithstanding the  
heavy production which ordinarily  
would have the effect of lowering the  
prices.

Statistics showing the size of var-  
ious crops, preliminary estimates in  
most instances with figures giving  
last year's crop were announced today  
as follows: (In thousands of bushels,  
i. e., 000's omitted):

Crops	1915 Estimate	1914 Crop
Corn	3,090,509	2,678,804
Wheat	1,002,029	891,017
Oats	1,517,478	1,141,060
Barley	236,682	194,953
Rye	44,179	42,779

The report says that the condition  
of corn is 9.7 per cent under the aver-  
age. The yield this year was 28.3  
bushels per acre, 96,009,000 bushels  
of old crop are in the farmers' bins,  
3.6 per cent of the entire crop of  
1914.

## ANCESTORS.

Ancestors are found along with old furniture and captive skeletons in all of our best families. Ancestors consist of forefathers and foremothers to say nothing of fore-uncles and aunts, who have done something grand or noble, like being beheaded by a king or having a relative who was governor of a colony. This enables them to be pointed at with pride by their descendants forever more.

Being an ancestor is one of the easiest and most attractive of jobs. It merely consists of being boosted by one's descendants. Thus, many ancestors have been enabled to make good after they are dead. More than one ancestor who has gone out of this life a poor person, and only a few jumps ahead of the sheriff, has had the good fortune, a century later, to become the ancestor of some ambitious family with plenty of money and has become so famous in consequence that his tombstone has had to be greatly enlarged and improved.

Ancestors are one of the most valuable and satisfactory possessions. They are non-taxable and cannot be stolen. Their upkeep is practically nothing, and they do not deteriorate

with age or neglect. In fact, they increase in value as they grow older. An ancestor 600 years old is worth a whole mass meeting of fifty-year-old ancestors. Adam is the oldest ancestor. He is 6,000 years old and had a fine record. But he is common property, like education and liberty, so he is not valued so highly.

Almost all rich people own and operate ancestors. But the poorest man may have them, too. Many a man who hasn't two vests to his name, and cannot hold a job two minutes, had ancestors who are the envy of his automobile neighbors. We cannot buy ancestors, if we do not have them, but we can buy them for our children by marrying discreetly. A full set of fine imported ancestors can now be purchased for a million dollars. The great trouble with these imported goods is that they are often badly infested with descendants. Some of the very finest ancestors have been almost ruined by these parasites and there is no legal cure.

In England, everybody has ancestors. Some of them are over 1,000 years old, and are still in a state of excellent preservation. The best American brand came over in the Mayflower about 300 years ago. Most of the better grades of American ancestors are now controlled by a trust, the Daughters of the Revolution.

We should all be proud of our ancestors, but not out loud.

## Past Year Has Tested Very Existence Of Labor Unions

(Associated Press)  
San Francisco, Nov. 8.—Presentation of the annual report of the executive council featured the opening day of the 35th annual convention of the American Federation of Labor which opened here today for two weeks' session. President Samuel Gompers presented the annual report which pronounced the year past the most momentous in the history of organized labor and one of extraordinary stress for the labor movement, testing as it had its very existence.

"There is not a country, and there is scarcely a relation in common life," says the council's report, "that does not show some effect of the terrible war that is being waged in Europe. From our present viewpoint these effects are primarily destructive. Whatever constructive value shall come out of it all will depend upon the wisdom, the ability and the statesmanship of the real statesmen of the nations. But at present we see customs, institutions and the relationship that are the result of years of struggle and persistent effort to realize ideals, swept away by the great tide of destruction and lost in the clash of arms, the smoke of the battlefield and the terrors of naval warfare."

Describing the effects of the war upon organized labor and American customs and institutions the report deals at length with attempts by interests of belligerent European nations to interfere with the peaceful pursuit of American industries.

"Some of these movements," it says, "have been genuine, others have been created by individuals and interests that were really unscrupulous. These movements have taken various forms; some have tried to influence the policies of the state and governmental authorities of our country, others have tried to work upon public opinion and still others have sought to use the good name of our labor movement to further the interests of some foreign country."

"High tribute was paid the working men of the nation through whom

patriotism these plans have perished and the movements so far have been futile.

The efforts to use the working men of our country have been two kinds, says the report, "one to get through them the endorsement of the foreign policy to place an embargo upon so-called munitions of war, the other has been to stir up industrial contentions and disputes and thus interfere with the actual process of production so that products to be sent abroad may be stopped. Foreign agencies have been trying to corruptly reach some of the organizations of the workers, but have not succeeded. There is nothing touching the industrial and commercial life of America that is not of interest to the warring nations."

The holding of a World's Labor Congress at the same time and place that peace delegates meet when the war is ended, is recommended in the report as "necessary in order to infuse the spirit of humanity and democracy into this political conference." In order that the position of the United States working men in this regard may be fully representative of the country's unanimous voice of labor, the report recommends that all international unions be urged to give the plan their support.

The report covers the recent investigation by labor leaders of the Dick Military Law. In that connection it says:

Statistical reports were read showing the average membership for the American Federation of Labor for the year was 1,946,347, a decrease of 74,324 members, the first decrease in total membership since 1908. While the average membership for the year shows a decrease of 74,324, the September membership is 1,994,111, a decrease of only 26,560. A steady growth in membership is predicted to follow the readjustment of conditions affected by the European war. Expenditures for the year 1915 were \$308,385.95 and receipts \$271,625.57 as compared with \$265,737.21 and \$263,166.97 in 1914.

## KITCHENER TRIP BACKED BY PARIS

Briand, Gallieni and Joffre Consulted by Briton.

## GREECE HAS ANOTHER PREMIER

He is M. Skouloudis and Besides is Minister of Foreign Affairs—Teutons Push Further into Serbia—Take 3,000 Prisoners and 130 Guns—Bulgarians Again Repulsed.

Paris, Nov. 8.—While on the way from London to the scene of war in the near east Field Marshal Earl Kitchener, British secretary of war, conferred with Premier Briand and General Gallieni, French minister of war, and also with General Joffre, French commander in chief.

This fact apparently confirmed the London report that Kitchener's mission includes an effort to co-ordinate the work of the general staffs of the allied armies in the whole campaign against the Germanic allies in the near east.

Meantime it was disclosed officially that the French troops were advancing in their attempt to relieve the Serbians. The official statement on this point reads:

"There is nothing to report regarding our advance from Krivolak. On the front of the Cerna River we continue our progress on the Ratrova side."

## Greece Gets New Premier.

Athens, Nov. 8.—M. Skouloudis, commissioned by King Constantine to form a new cabinet, has accomplished the task. All members of the Zaimis ministry were retained except the premier himself, and one other new man was added to it. The new prime minister took the portfolio of foreign affairs.

The formation of the new cabinet, it is assumed, will delay if not eliminate the crisis that might follow dissolution of the chamber of deputies by the king.

## Favors Entente Allies.

M. Skouloudis is not a deputy, but is regarded as an able diplomat known chiefly for the part he played in the London peace conference in 1913 after the Balkan war. He was minister of foreign affairs in the Rallis cabinet in 1897. He is reputed to be favorably disposed toward the quadruple entente.

## Bulgars Try to Trap French.

London, Nov. 8.—A division of 25,000 Bulgarians is attempting to envelop the French force in the Valandov region, is the information obtained from Bulgarian soldiers by a Greek outpost in the Balasoo Mountain at the junction of the Greek, Serbian and Bulgarian frontiers, says a Reuter dispatch from Saloniki. Heavy artillery and rifle fire has been heard at the outpost station.

Allied re-enforcements are passing Guevgeli regularly, it is asserted. A Serbian official is quoted as declaring the Serbs are holding firm at Babuna Pass, where all Bulgarian onslaughts have been repulsed. The pass is said to be piled deep with Bulgarian dead. At one point a force of more than 1,600 Bulgarians was annihilated.

## Serbian in Retreat.

Berlin, Nov. 8.—"Following the fall of Nish," says the Tadeblatt's correspondent at Austrian press headquarters, "Serbian troops which have been holding the Morava sector, between Nish and Varvarin, are beginning to retreat beyond Krusevac."

Berlin claims 3,000 Serbs and 130 cannons were captured.

## RIVER BOOSTERS TO MEET

Will Inspect New Steel Barge on Mississippi at Conference.

Quincy, Ill., Nov. 8.—The postponed fourteenth annual convention of the Upper Mississippi River Improvement association will be held in this city Dec. 1 and 2, according to an official call just issued from the office of L. B. Boswell, secretary of the organization.

The governors of Illinois, Missouri, Iowa, Minnesota and Wisconsin, the mayors of towns and villages in those states, all commercial and business men's organizations and representatives of the press, have been invited to attend or send delegates to represent them.

## RED LIGHT DISTRICT TO GO

Clergymen of Quincy, Ill., Will Put Law into Use.

Quincy, Ill., Nov. 8.—Clergymen of Quincy decided to close Quincy's segregated district, which has been in existence for more than fifty years.

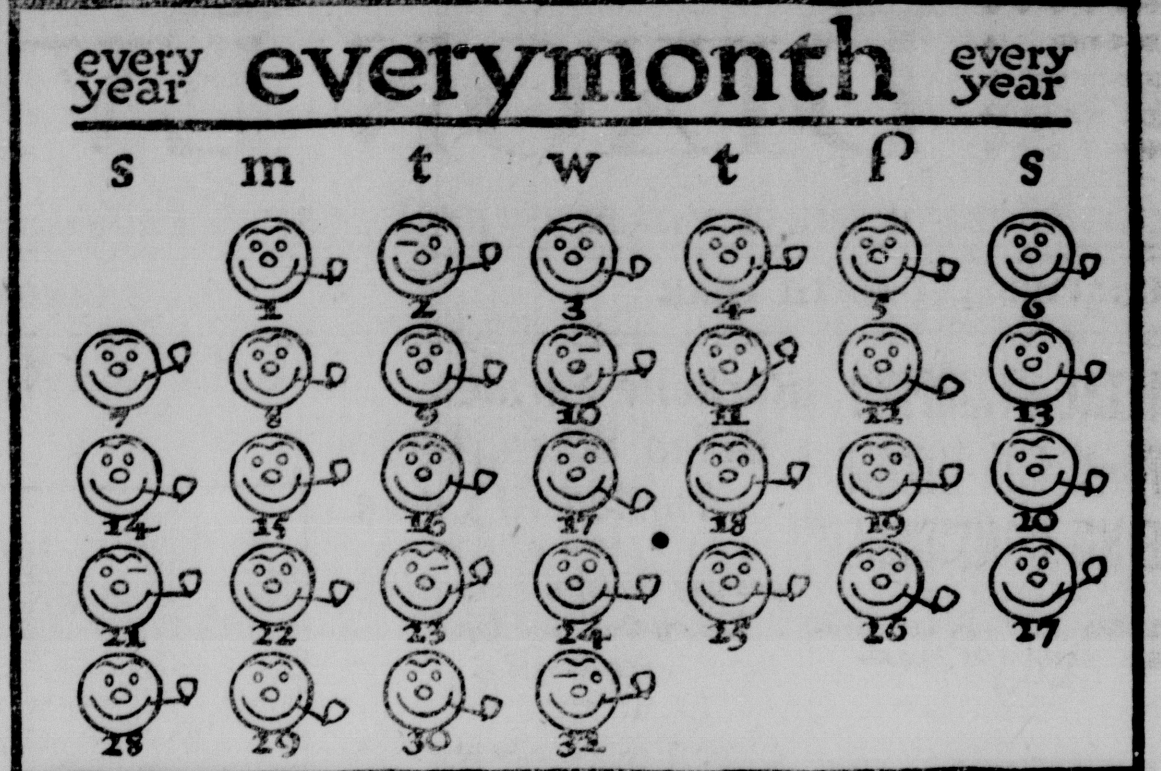

The closing is made possible by a recently enacted state law which provides a perpetual injunction against all such districts.

## Coroner Finds Farmer Slain.

Grand Forks, N. D., Nov. 8.—Thomas McDole of Stevens Point, Wis., was murdered on a farm near Towner, N. D., by parties unknown, according to the coroner's jury verdict. McDole was found near the home of Clarence Knutson, his skull fractured. He had been employed in threshing.

# happy days!

"Tux" is the happy smoke. It just packs the smoker's calendar so plumb full of fragrant delight that a gloomy day can't crowd itself in edgewise. That mild, soothing taste of "Tux" has introduced many a man to the joy of pipe-smoking and a regular unending procession of happy days.

MARCUS J. WRIGHT

"Owing to its mild,

sweet flavor, Tuxedo is

superior to all other tobac-

cos. I enjoy smoking it

immensely and recommend

it to all smokers."

Marcus J. Wright

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

By far the most pleasant pipe-smoke in the world is Tuxedo. Think of the supreme satisfaction of being able to smoke your pipe all day, and day after day, without a particle of discomfort! You can do it with Tuxedo—because Tuxedo is made wonderfully mild and absolutely biteless by the original "Tuxedo Process."

That process is what makes Tuxedo different from any other tobacco made. Others have tried to imitate it, but never successfully.

Just try Tuxedo for a week and you'll smoke it ever after.

## DEKALB VICTOR OVER DIXON

Defeated the Weakened High School Team 16 to 0 Saturday.

The Dixon union high school football team minus several of its stars, met defeat at DeKalb Saturday, score 16 to 0, in a game in which the Dixon lads, weakened by the absence of several stars, battled bravely against the odds. DeKalb scored first in the first quarter when Cannon booted the ball over the cross bar, scoring three points. During the second and third quarters the teams fought evenly but in the last quarter DeKalb, aided by the referee, piled up a couple of touch downs.

## DEMENTTOWN DOINGS

It is reported that a few weeks ago two Palmyra young men, proud owners of an automobile, had trouble with the lights on their car when they started for the home of a young damsel whom they had expected to take to a social function. They were forced to run some distance with no lights at all—consequently could not have

been expected to know that the lady of their attention was in the vehicle ahead of them, bound to the affair with another escort.

## Where Editors Are Protected.

Down at Dadeville the other day, Frank Clifton in a heated argument with the editor of a little paper at that place, characterized the literary luminary as a leatherhead. This enraged the moulder of public thought and he caused the arrest of Clifton. The matter was taken before a justice of the peace, who fined Clifton \$1 and costs. Being without funds Clifton was sent to jail.—Cass Co. (Mo.) Leader.

## Singers Wanted More Pie.

The leading soprano in an Ionian choir shocked the audience by bursting out with "Give me more pie" and the alto hastened to follow the suggestion, singing in the same words. The women in the audience were gathering up their wraps, shocked at such abnormal appetites, and the men were waking up from their naps when the whole choir burst forth, "Give me more pie!" they sang, and the panic was averted.—Portland (Mich.) Review.

## Does Seem a Long Time.

A school teacher who had been ter-

ling a class of small pupils the story of the discovery of America by Columbus, ended it with:

"All this happened more than 400 years ago."

A little boy with eyes wide open with wonder, said, after a moment's thought:

"Oh, my, what a memory you've got."

Herman Schaffer of Hennepin avenue returned from Amboy last evening.

George C. Spencer was at Langley today on business.

## P. A. B. Widener Passes Away.

Philadelphia, Pa., Nov. 8.—P. A. B. Widener, widely known financier and former traction magnate, died at his home at Elkins Park, near here. Mr. Widener had been ill for some time. He would have been eighty-two years old had he lived until Nov. 13 of this year.

## Cousin of Allison Is Dead.

Quincy, Ill., Nov. 8.—Mrs. Nancy L. Martin, eighty-two years old, a resident of Quincy for many years and cousin of Senator Allison of Iowa, is dead here. Three sons and two daughters survive.

## BREAKS A COLD IN JUST A FEW HOURS

"Pape's Cold Compound," Ends grippe misery—Don't stay Stuffed up!

You can end grippe and break up a severe cold, either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound" which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

## YOUR BILIOUS! LET "CASCARETS" LIVE LIVER AND BOWELS

Don't stay headachy, costipated, sick, with breath bad and stomach sour

Get a 10-cent box now. You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and four gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box form any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

### D. A. R. Meeting

The second meeting of the year of the Daughters of the American Revolution was held at the home of Mrs. O. A. Murphy on Second street, Saturday, Nov. 6th. A goodly number of ladies attended. At the regular hour they were called to order by the regent, Miss Laing.

After the opening exercises, Mrs. Law reported on the progress on the project of obtaining the lot where the Block House stood in the early days and placing thereon a tablet to mark that spot of historic interest. Mrs. Law also read from the magazine which is the official publication some interesting items connected with Ft. Massac and Ft. Armstrong.

The D. A. R. are ambitious to accomplish their project connected with purchasing the lot and the erection of the tablet at the north end of the bridge within the next two years, as 1918 will be the centennial year of the state's admission into the union.

Mrs. D. E. Raymond gave an interesting paper on "The Framers of the Constitution," showing the difficulties they had to cope with in uniting the colonies to resist the English government, and of the long debates of five months in Philadelphia before they were satisfied with the constitution upon which they finally agreed. There were gathered together many illustrious men in the consideration of this subject whose names will ever be indissolubly connected with the history of America.

Mrs. Anna Demont read extracts from the text book, "How Americans Are Governed," on "The National Government—General and Legislative Power over Money," telling of and explaining the different taxes, duties, imposts, loans, bonds, etc.

A very interesting report of the state conference at Bloomington was given by Mrs. Dodge. All her audience wished they could have attended and imbibed still more of the enthusiasm with which Mrs. Dodge always inspires her hearers.

After the close of the program a pleasant social session was enjoyed. Vaile, and Mrs. Godfrey and Messrs. Bileous refreshments.—Press Correspondent.

### Entertained S. S. Children

Saturday was a great day for the children of primary and intermediate grades of the Baptist Sunday school who had been invited by Rev. and Mrs. G. W. Stoddard to enjoy a picnic on the parsonage lawn. About 60 children responded and a merry time was spent in various out door contests and games.

The first part of the program consisted of a number of athletic events in which all had a chance to take part, the winners being:

50-yard dash—Paul Miller, first; Harry Kerz, second.

Sack race—Paul Miller, first; Clifford Potts, second.

Apple race—Charles Nester, first; George Scott, second.

Running broad jump—Harry Kerz, first; Claude Musgraves, second.

50-yard dash—free for all girls—Mary Nester, first; Mabel Laidig second. Miss Mabel Laidig won in the race of the larger girls.

The tug of war proved to be an exciting event with five girls out-pulling five boys. In the bean guessing contest, Mabel Musgraves guessed the closest to the actual number in the jar. The contests were followed by the serving of refreshments on the lawn.

The children of the primary department enjoyed swinging in a 30-

foot swing, while the older children played with the flying rings and other playground equipment.

### Will Institute Playground

Rev. G. W. Stoddard of the Baptist church expects to equip the rear part of the parsonage lot with playground apparatus in the early spring. He operated a public playground on a small scale, very successfully at Streater in the church yard and is, therefore, experienced in the play game. It is not his intention, however, to turn the parsonage yard into a playground like he did there, but it will be open occasionally for the enjoyment of the children. He is also planning for a number of in door picnics to be held in the basement of the church this winter and he will continue hiking with the boys of his class.

### Enjoyed Long Drive

Mrs. Hackett of Chicago, Mr. and Mrs. Frank Rink and Miss Rink enjoyed a motor ride of 120 miles yesterday, going to the east end of the county, and return.

### Dixon Woman's Club

At the conclusion of a business meeting presided over by the president, Mrs. Newcomer, Mrs. Palmer of the Household Science department of the Woman's club took the chair. After singing the club song, Mrs. Maude Bartholomew Bryan favored with a solo, "I Hear a Thrush at Eve," by Cadman and in response to an encore she gave "The Sweetest Flower That Blooms," by Hanley. Mrs. Palmer then introduced Mrs. Frederick Grant, who spoke upon "Pure Foods."

Mrs. Grant is a very pleasant speaker and thoroughly acquainted with her subject. Her entire speech was full of useful, practical information to housewives, whose duty it is to purchase food for the household. She said men were trained to be providers and if women were trained in the ways to get the most and best foods for the money placed at their disposal it would result in great economy and also the well being of their dependents. Among the many practical hints given were "buy canned goods which are labeled with the name of the manufacturers. Milk asparagus, beans and fish should bear date of canning on label and should be less than three years old, because of their action on the tin of the can. Cream of tartar or baking powder are more wholesome than alum or phosphates. Coffees and teas in packages are more sure to be cleaner than in bulk. Bread should be wrapped before leaving the bakery, and housewives should insist on their grocers handling the pound packages of cocoa for 35c in stead of paying 25c for a half pound and buy uncooked rice and keep asking for unpolished rice until the dealers handle it."

Many of the ladies present were surprised to learn how much they paid per bushel for wheat and corn when they bought them in corn flakes, cream of wheat and grape nuts, and that commercial salad dressing contained neither eggs nor olive oil. Some of the work suggested for the club to do was to get better inspection for milk, public collection of garbage and to insist on food on exhibition, which might be contaminated, being covered and screened. Mesdames Kling, Newcomer and Egler were hostesses for the afternoon and a very pleasant social half hour was spent while partaking of refreshments. Mesdames Dysart and Stebbins poured.

**A SHORT "AG." COURSE FOR HIGH SCHOOLS.**

In Freeport, where school conditions are especially good, a proposition has gone before the board of education, and is being seriously considered, to install a three months' winter course in agriculture for country boys, in the Freeport high school. Animal husbandry, soils and crops, commercial work and manual training would be among the studies offered on this course. Such a course would be a big attraction to country boys. It teaches them the things that will be most valuable to them if they are to continue their life on the farm.

Freeport high school teaches agriculture now, and this course is no unimportant part of the school program, but we presume the idea is that a short course in addition to the regular one, would be of great advantage to the older boys on the farm who are unable to quit work in September and go to school all through the winter and spring.

Such an action on the part of the Freeport school will demonstrate the progressiveness of that institution. The Telegraph congratulates Freeport on the idea, which we believe to be an excellent one, and we wish that Dixon could advance herself as rapidly in this particular direction.

Dixon, however, is unfortunate in having her strength divided, and two separate and distinct high schools and as many high school organizations and systems are maintained which, of course, is nearly double the necessary expense. When Dixon awakes to this needless extravagance and consolidates her high schools, the consolidated school can use the same income that has been used to support two schools, and maintain one splendid school.

How much more practical it is for the boy who is brought up to a life of farming, who can never have more advanced schooling than that given him in the high school, to be able to devote a part of his time at the high school to the study of the science of farming. He is then studying something that he intends to work at all his life. He is learning the simplest, most effective and most profitable way of doing the work upon which he must depend for the livelihood of himself and his family throughout his years on this earth. Tell us, please, where he can more profitably spend his time than at studying agriculture.

This applies to vocational training of all kinds. Every boy and girl needs polishing in all the studies. The English and the mathematics are highly important and the history and geography and the languages make them more attractive and make them better appreciate the good things of the world, perhaps, but those things are all unimportant compared to the study of the work they must follow all their lives. In the home of the average workingman the science of cooking well and economically and of running a house in a businesslike manner will be worth more to the family and will be better appreciated by the husband than the ability of his wife to translate a few Latin words or to detail the dates of the important events in the French revolution.

The schools of America are becoming more practical every day. Dixon must keep up with the march of progress.

**PROFITABLE CROP ROTATION.**

The most profitable crop rotation does not consist merely in changing the crops around from year to year, regardless of the relations of the crops to each other. The central aim in all crop rotation should be to leave each field in a better state of cultivation, better physical condition, and reasonably free from pests at the end of each rotation cycle.

No hard and fast rotation system can be laid down for any community, but the most profitable system must be worked out for each farm and, indeed, for each field. There are certain general principles, however, that should be borne in mind in this connection in order to accomplish the most satisfactory results. For soil improvement there should be at least one leguminous crop in each rotation cycle. To this class of plants belong the clovers, alfalfa, peas, beans, etc. There should be also a sufficient quantity of livestock, especially milk cows, on each farm to utilize the desired quantity of stable manure, which, in addition to green crops plowed under, will furnish the necessary amount of humus to the soil. The conditions resulting from this treatment, if the soil is properly handled, will make the succeeding crops more vigorous and capable of offsetting in some measure at least, the effects of any pests that may appear. Again, the successive crops in any rotation should be so selected and arranged that no two upon which the same pest may thrive will be grown in succession. The principle of disease control by means of crop rotation are based upon the fact that certain pests can thrive only on certain kinds of plants. Therefore, when the crops are changed

**FREE LOVE AND FREE ADVERTISING.**

That fellow Frank Lloyd Wright and his lady friend are getting a lot and free advertising do not make what you would call a rattling good mixture, however. The principals in that sort of a love affair can manage to struggle along without the advertising, if the newspapers will let them, and personally, we believe that it would be just as well for the public to keep its fingers out of that sort of a mess. Nobody is any better off after they know all about it. Because the principals in the scandal are noted and wealthy and all that sort of rot, the world of fashion sits around in interested amazement and watches the path of the searchlight of publicity as it is turned into the dark and dank and somewhat odorous recesses of their morals and their private lives. If the people were lowly and of the common herd society would turn up its nose at the mention of the affair and the police would raid the place.

**EUGENE DEBS WILL LECTURE HERE DEC. 6**

FAMOUS SOCIALIST LEADER SECURED FOR EVENING IN THIS CITY.

Dixon is one of three cities in Illinois that has the rare opportunity and good fortune of securing Eugene V. Debs, three times candidate for president of the United States, for a lecture to be given at the Socialist hall, December 6.

This will give an opportunity to the people of Dixon and vicinity to hear this Master of the Platform.

And in the "Hoosier Bard's" poem "Regarding Terry Hut" appears these

lines:  
And there's Gene Debs—a man 'at  
stands  
And jest holds out in his two hands  
A heart as warm as ever beat  
Betwixt here and the Judgment Seat.

Edwin Markham says: "Eugene V. Debs. This is one of the great names of the century. No one, not even a political enemy, has ever said that Debs is not sincere to the core of his heart. It is an event to meet this courageous friend of man. The grasp of his hand is comforting, the look of his lighted face is an inspiration. In that one look you are taken into the door of his home, seated at his table, warmed at his chimney-fire."

Sterling, Nov. 8.—Four boys, Lawrence Williams, Avery Froole, Elmer Morris and John Wessels, stole Abe Lee's "jitney" auto from the streets Saturday night and started west. Lee has started after them on a motorcycle, armed with warrants for arrest, but at a late hour today nothing had been heard of pursued or pursuer.

**PEOPLE'S COLUMN**

CONCERNED REVEREND MARTIN AND HIS BELIEFS

In an article published in the Evening Telegraph and taken from a Des Moines paper, it is stated that Rev. Everett Dean Martin holds the belief that "those who love each other should be mated, whether or not either is already married to another, if love has ceased to exist."

With the private affairs of Rev. Everett Dean Martin I have no concern or interest. I simply write to avoid a misconception which may occur in the minds of those unfamiliar with the teaching of Liberalism. Unitarianism has no teaching what practice "free love," play fast and loose with morality, or enter lightly on the marriage tie. Liberalism of Unitarianism has not teaching what ever on the relations of the sexes, or concerning the marriage tie. In common with all other creeds it aims to make the world happier and consequently better.

Liberalism stands for a freedom from all creedal restrictions, but that is not to say that it has no positive teaching. As Liberals we believe in the Fatherhood of God and the Brotherhood of Man. That the Bible is a revelation of God; in the spiritual leadership of Jesus; in the final harmony of all souls with God; in the Divinity of all humanity.

Liberalism aims to present a gospel that not a defiance of every law of reason. It propagates a Christianity that is scientific, and a science that is Christian. It makes for the alliance of faith and reason. Its chief endeavor is to promote a practical application of the great principles of the Man of Nazareth, and by so doing precipitate a Republic of Man based on the Fatherhood of God and the common kinship of the human race. It aims at the establishment of that Kingdom whose characteristics are righteousness, peace and joy.

Pastor of the People's church, Dixon

**PICKED STRAWBERRIES TODAY**

Somebody or other was given prominent mention in one of the Chicago morning papers for having found two raspberries in his garden. Bob Stell, turnkey at the Lee County jail, beats that story all hollow, for he appeared down town this morning with a whole handful of nice, ripe strawberries. Mahlon Forsyth, in the Dixon National bank, was the fortunate recipient of the out-of-season fruit. The berries came from the garden at the jail and Mr. Stell said there were a considerable number of them.

**CURRENT COMMENT**

National Republican: It has been supposed for some months, and is now made reasonably certain by the announcement of the engagement that the "lonely man in the White House," hasn't been so lonely as the political sob artists would have us believe. We are all glad of it.

Galesburg Republican Register: It is stated that the persistence with which Coland Craig's name is being mentioned in connection with the democratic nomination for governorship is giving some of the Chicago contingent the fits.

Grayville Independent: The United States may have all the money in the world after the war. The question is will the other nations—armed and trained fighters—let us keep it?

**BLIND BABY GIRL SCALDED TO DEATH**

STERLING BABE MET A TRAGIC DEATH AT HOME EARLY THIS MORNING.

(Special to Telegraph)  
Sterling, Nov. 8.—Catherine, the 18 months' old daughter of Mr. and Mrs. Bernard Duffy, fell into a boiler of scalding water at 10:30 o'clock this morning and received burns from which she died at 1:30 o'clock, after terrible suffering. The little one, who was blind, was descending the cellar steps to join her mother, when she stumbled and fell into the scalding water. Her mother was badly burned about the arms in taking the child from the boiling water.

#### DIXON OPERA HOUSE

On Tuesday night the 28th episode of the Diamond from the Sky, entitled On the Wings of the Morning, will be shown; also The Mystery of the Tapestry Room, a thrilling detective story in three parts featuring Murdock MacQuarrie, a two reel L-Ko comedy feature entitled A Tale of Twenty Stones and She Loved Them Both, a great one reel drama.

#### PRINCESS THEATRE.

Tonight the second of the "Buck Parvin" stories by Charles Van Loan will be shown at the Princess theatre. The story is entitled "Buck's Lady Friend," which thousands of people are familiar with, having read it in the Saturday Evening Post. The story is a comedy that will make the audience roar. The last reel on the bill is a novelty comedy entitled "Miss Trillies Big Feet," wherein an ice cream treat falls the demonic powers. Edith Thornton and Joe Burke take the leading roles.

#### FAMILY THEATRE.

Blanche Sweet will be featured this evening in a six reel feature play at the Family entitled "The Captive," and tomorrow night "The Cotton King," with Geo. Nash, will be given. An entire change of the following acts: Wells Sisters, contortionists; Sharp & Ramser, harmony singers; Tom Bradford, the Human Band, and Anderson & Brookings in the comedy sketch "The Lady and the Parson." The entire bill of both pictures and vaudeville promises to be an exceptionally good one and a big crowd is expected.

### LOST IN THE CLOUDS OVER ENEMY'S LINES

Paris, Oct. 25.—Correspondence of Associated Press—Friends of Pegoud, the French aviator, are planning to make a permanent record of his services to aviation by publishing his diary, which contains a minute and wind and take in his daily life. But characteristic chronicle of his daily life I think how I have cursed. Another work. His activity, as shown by his lesson for me, and I shall keep my

diary, was extraordinary. During the month of August, for example, there were eleven days of rain and two days when he was prevented from flying by accident to his machine. On the other 18 days he chased 21 German machines, fought two pitched battles in the air and made more than a score of reconnaissances.

A characteristic bit from the diary is published in the Paris Journal describing his journey of Dec. 27 when he lost his way and nearly ran out of petrol in the enemy's country. He writes:

"Weather cloudy. Morning observation at Verdun. No Boche aeroplane about. 13.20 leave with eight shells for Nantillois. At 4200 ft. over Bras I get into clouds. Fog and rain continue over Nantillois. More than beastly. My machine in all positions. Can see nothing. Am continually wiping my glasses; compass jammed.

"After 1½ hours of all sorts of worry, dive to get my position. I notice 1800 feet under the clouds a fine captive balloon and drop my eight bombs. General panic in the company. Several guns are fired at me. I rise up into the fog. Lost again. Dive down to see, and continue flight at 3000 feet. Up again among the clouds and give down into 2400 ft.

"I steady the machine and compass and take the direction S. W. I have an hour's petrol left. Swearing like a pickpocket. It's the limit. I don't know where I am and am fired at. I am 2400 ft. up. Up into the clouds. Down again. Note a rather large station. Am shot at. Up into the clouds again. Dive 26 minutes later and am again over the station. I'm like a roaring wild beast. Only 15 litres of petrol left. Don't know where I am; am shot at. I make up my mind, and am going to fly under the clouds at 2400 ft. S. W. till petrol gives out, despite shots.

"I note a village far off, and as I get nearer recognize Etain. I can use my lungs to breathe now. Saved! Good heavens, to think how mad I have been with rage. I dive with the motor at full speed. The wind is in my nose. I keep on wiping the glasses and break one, case and all. Pass over Etain at 1450 ft. still diving with motor at full speed.

"Reach Verdun in fog at 150 ft., and get hail and rain. Can see nothing. One of my eyes is hurting badly. Land. It's a splendid feeling after all. I can breathe now with my face to the wind and take in lungfuls of air. But characteristic chronicle of his daily life I think how I have cursed. Another work. His activity, as shown by his lesson for me, and I shall keep my

### CHURCH NOTES

#### EPWORTH LEAGUE

The Epworth League of the Methodist church was presided over Sunday evening by G. I. Runyan of North Dixon. The topic was "A Prophet's Great Promise to Youth" and was discussed by Mr. Runyan in his usual scholarly manner. Some thoughts derived from the topic were that prophets of this day may be had and we have them, just as they lived with God, and influenced their nations in the years of the Testaments. All great men have been men of vision; for example, George Washington who freed a nation, and Abraham Lincoln who freed a race, and many others have, thru their visions accomplished great good in the world. Joel, the Prophet, advising youth tells them of visions they will see, and the necessity of working in youth for the greater accomplishment of good; that the vision to do the most good must be the best for mankind would be benefited.

Mr. Runyan is a veteran in the work of the young people societies; he has held official positions in the various local and state offices of the Epworth League of the Methodist church.

You will be welcomed to these meetings, held every Sunday evening at 6:30 o'clock.

Miss Bertha Bennett will have charge of the meeting next Sunday.

#### MEETINGS CONTINUE

The evangelistic meetings at the Grace Evangelical church will continue every evening this week with the exception of Saturday. There will be three cottage prayer meetings daily beginning Wednesday at 2:30 o'clock. The interest in these meetings is increasing. Rev. J. H. Keagle of Polo will preach at the service this evening.

At noon the 22 members present went to Grand Detour and dined at the Sheffield hotel, the trip being made in autos. They returned before 2 o'clock and Rev. E. C. Harris of Sterling read a paper on "Social Aspect of Life in India."

### TRUCK BLOWN IN FRONT OF TRAIN

Passenger Engine Demolished Truck At Northwestern Depot.

There was a small wreck at the C. & N. W. depot this morning at 12:30 and as a result there is one less truck at the depot. The wind started a baggage truck left on the platform and it ran onto the eastbound main track just ahead of passenger No. 10 which was nearly an hour and a quarter late. The engine struck the truck with sufficient force to reduce it to kindling and scattered the pieces about. It was fortunate no one was in the vicinity of the baggage room or they might have been struck by pieces.

ANSWERED ALARMS FROM GOS. SARD PLANT AND DAUNT- LER CIGAR STORE.

The fire department answered two calls Sunday, but in neither instance was the damage caused of much consequence. The first call was at 4:15 a. m. to the rear of the J. J. Dauntler & Son tobacco store. The fire was located in a small brick building that houses the gasoline engine and electric light plant, and started in oily waste in a corner of the building. The blaze was extinguished with a chemicals.

At 9:15 o'clock in the evening the department was called to the Gossard corset factory to put out a fire in some refuse that had been cleaned out of cars and set afire near the rear. The high wind blew sparks in all directions and neighbors became alarmed.

In Freeport, where school conditions are especially good, a proposition has gone before the board of education, and is being seriously considered, to install a three months' winter course in agriculture for country boys, in the Freeport high school. Animal husbandry, soils and crops, commercial work and manual training would be among the studies offered on this course. Such a course would be a big attraction to country boys. It teaches them the things that will be most valuable to them if they are to continue their life on the farm.

Freeport high school teaches agriculture now, and this course is no unimportant part of the school program, but we presume the idea is that a short course in addition to the regular one, would be of great advantage to the older boys on the farm who are unable to quit work in September and go to school all through the winter and spring.

Such an action on the part of the Freeport school will demonstrate the progressiveness of that institution. The Telegraph congratulates Freeport on the idea, which we believe to be an excellent one, and we wish that Dixon could advance herself as rapidly in this particular direction.

Dixon, however, is unfortunate in having her strength divided, and two separate and distinct high schools and as many high school organizations and systems are maintained which, of course, is nearly double the necessary expense. When Dixon awakes to this needless extravagance and consolidates her high schools, the consolidated school can use the same income that has been used to support two schools, and maintain one splendid school.

How much more practical it is for the boy who is brought up to a life of farming, who can never have more advanced schooling than that given him in the high school, to be able to devote a part of his time at the high school to the study of the science of farming. He is then studying something that he intends to work at all his life. He is learning the simplest, most effective and most profitable way of doing the work upon which he must depend for the livelihood of himself and his family throughout his years on this earth. Tell us, please, where he can more profitably spend his time than at studying agriculture.

This applies to vocational training of all kinds. Every boy and girl needs polishing in all the studies. The English and the mathematics are highly important and the history and geography and the languages make them more attractive and make them better appreciate the good things of the world, perhaps, but those things are all unimportant compared to the study of the work they must follow all their lives. In the home of the average workingman the science of cooking well and economically and of running a house in a businesslike manner will be worth more to the family and will be better appreciated by the husband than the ability of his wife to translate a few Latin words or to detail the dates of the important events in the French revolution.

The schools of America are becoming more practical every day. Dixon must keep up with the march of progress.

**PROFITABLE CROP ROTATION.**

The most profitable crop rotation does not consist merely in changing the crops around from year to year, regardless of the relations of the crops to each other. The central aim in all crop rotation should be to leave each field in a better state of cultivation, better physical condition, and reasonably free from pests at the end of each rotation cycle.

No hard and fast rotation system can be laid down for any community, but the most profitable system must be worked out for each farm and, indeed, for each field. There are certain general principles, however, that should be borne in mind in this connection in order to accomplish the most satisfactory results. For soil improvement there should be at least one leguminous crop in each rotation cycle. To this class of plants belong the clovers, alfalfa, peas, beans, etc. There should be also a sufficient quantity of livestock, especially milk cows, on each farm to utilize the desired quantity of stable manure, which, in addition to green crops plowed under, will furnish the necessary amount of humus to the soil. The conditions resulting from this treatment, if the soil is properly handled, will make the succeeding crops more vigorous and capable of offsetting in some measure at least, the effects of any pests that may appear. Again, the successive crops in any rotation should be so selected and arranged that no two upon which the same pest may thrive will be grown in succession. The principle of disease control by means of crop rotation are based upon the fact that certain pests can thrive only on certain kinds of plants. Therefore, when the crops are changed

**FREE LOVE AND FREE ADVERTISING.**

That fellow Frank Lloyd Wright and his lady friend are getting a lot and free advertising do not make what you would call a rattling good mixture. The principals in that sort of a love affair can manage to struggle along without the advertising, if the newspapers will let them, and personally, we believe that it would be just as well for the public to keep its fingers out of that sort of a mess. Nobody is any better off after they know all about it. Because the principals in the scandal are noted and wealthy and all that sort of rot, the world of fashion sits around in interested amazement and watches the path of the searchlight of publicity as it is turned into the dark and dank and somewhat odoriferous recesses of their morals and their private lives. If the people were lowly and of the common herd society would turn up its nose at the mention of the affair and the police would raid the place.

**EUGENE DEBS WILL LECTURE HERE DEC. 6**

FAMOUS SOCIALIST LEADER SECURED FOR EVENING IN THIS CITY.

Dixon is one of three cities in Illinois that has the rare opportunity and good fortune of securing Eugene V. Debs, three times candidate for president of the United States, for a lecture to be given at the Socialist hall, December 6.

This will give an opportunity to the people of Dixon and vicinity to hear this Master of the Platform.

And in the "Hoosier Bard's" poem "Regarding Terry Hut" appears these

lines:  
And there's Gene Debs—a man  
at stands

And just holds out in his two hands  
A heart as warm as ever beat

Between here and the Judgment Seat.  
Edwin Markham says: "Eugene

V. Debs. This is one of the great names of the century. No one, not even a political enemy, has ever said that Debs is not sincere to the core of his heart. It is an event to meet this

courageous friend of man. The grasp of his hand is comforting, the look of his lighted face is an inspiration. Is that one look you are taken into the door of his home, seated at his table, warmed at his chimney-fire."

Sterling, Nov. 8.—Four boys, Lawrence Williams, Avery Peole, Elmer Morris and John Wessels, stole Abe Lee's "jitney" auto from the streets Saturday night and started west. Lee has started after them on a motorcycle, armed with warrants for arrest, but at a late hour today nothing had been heard of pursued or pursuer.

**PEOPLE'S COLUMN**

CONCERNING REV. MARTIN A. DUFFY'S BELIEFS

In an article published in the Evening Telegraph and taken from a Des Moines paper, it is stated that Rev. Everett Dean Martin holds the belief that "those who love each other should be mated, whether or not either is already married to another, if love has ceased to exist." With the private affairs of Rev. Everett Dean Martin I have no concern or interest. I simply write to avoid a misconception which may occur in the minds of those unfamiliar with the teaching of Liberalism. Unitarianism has no teaching what practice "free love," play fast and loose with morality, or enter lightly on the marriage tie. Liberalism or Unitarianism has no teaching what ever on the relations of the sexes, or concerning the marriage tie. In common with all other creeds it aims to make the world happier and consequently better.

Liberalism stands for a freedom from all creedal restrictions, but that is not to say that it has no positive teaching. As Liberals we believe in the Fatherhood of God and the Brotherhood of Man. That the Bible is a revelation of God; in the spiritual leadership of Jesus; in the final harmony of all souls with God; in the Divinity of all humanity.

Liberalism aims to present a gospel that not a defiance of every law of reason. It propagates a Christianity that is scientific, and a science that is Christian. It makes for the alliance of faith and reason. Its chief endeavor is to promote a practical application of the great principles of the Man of Nazareth, and by so doing precipitate a Republic of Man based on the Fatherhood of God and the common kinship of the human race. It aims at the establishment of that Kingdom whose characteristics are righteousness, peace and joy.

**PICKED STRAWBERRIES TODAY**

Somebody or other was given prominent mention in one of the Chicago morning papers for having found two raspberries in his garden. Bob Stell, turnkey at the Lee County jail, beats that story all hollow, for he appeared down town this morning with a whole handful of nice, ripe strawberries. Mahlon Forsyth, in the Dixon National bank, was the fortunate recipient of the out-of-season fruit. The berries came from the garden at the jail and Mr. Stell said there were a considerable number of them.

STERLING BABE MET A TRAGIC DEATH AT HOME EARLY THIS MORNING.

(Special to Telegraph)  
Sterling, Nov. 8.—Catherine, the 18 months' old daughter of Mr. and Mrs. Bernard Duffy, fell into a boiler of scalding water at 10:30 o'clock this morning and received burns from which she died at 1:30 o'clock, after terrible suffering. The little one, who was blind, was descending the cellar steps to join her mother, when she stumbled and fell into the scalding water. Her mother was badly burned about the arms in taking the child from the boiling water.

### Dramatic Notes

#### DIXON OPERA HOUSE

On Tuesday night the 28th episode of the Diamond from the Sky, entitled On the Wings of the Morning, will be shown; also The Mystery of the Tapestry Room, a thrilling detective story in three parts featuring Murdock MacQuarrie, a two reel L-Ko comedy feature entitled A Tale of Twenty Stones and She Loved Them Both, a great one reel drama.

#### PRINCESS THEATRE.

Tonight the second of the "Buck Parvin" stories by Charles Van Loan will be shown at the Princess theatre. The story is entitled "Buck's Lady Friend," which thousands of people are familiar with, having read it in the Saturday Evening Post. The story is a comedy that will make the audience roar. The last reel on the bill is a novelty comedy entitled "Miss Trillies Big Feet," wherein an ice cream treat fails the demonic powers. Edith Thornton and Joe Burke take the leading roles.

#### FAMILY THEATRE.

Blanche Sweet will be featured this evening in a six reel feature play at the Family entitled "The Captive," and tomorrow night "The Cotton King," with Geo. Nash, will be given. An entire change of vaudeville will be given consisting of the following acts: Wells Sisters, contortionists; Sharp & Ramser, harmony singers; Tom Bradford, the Human Band, and Anderson & Brookings in the comedy sketch "The Lady and the Parson." The entire bill of both pictures and vaudeville promises to be an exceptionally good one and a big crowd is expected.

### LOST IN THE CLOUDS OVER ENEMY'S LINES

Paris, Oct. 25—Correspondence of Associated Press—Friends of Pegoud, the French aviator, are planning to make a permanent record of his services to aviation by publishing his diary, which contains a minute and characteristic chronicle of his daily work. His activity, as shown by his lessons for me, and I shall keep my

diary, was extraordinary. During the month of August, for example, there were eleven days of rain, and two days when he was prevented from flying by accident to his machine. On the other 18 days he chased 21 German machines, fought two pitched battles in the air and made more than a score of reconnaissances.

A characteristic bit from the diary is published in the Paris Journal describing his journey of Dec. 27 when he lost his way and nearly ran out of petrol in the enemy's country. He writes:

"Weather cloudy. Morning observation at Verdun. No Boche aeroplane about. 13.20 leave with eight shells for Nantillois. At 4200 ft. over Bras I get into clouds. Fog and rain continue over Nantillois. More than usually. My machine in all positions. Can see nothing. Am continually wiping my glasses; compass jammed.

"After 1½ hours of all sorts of worry, dive to get my position. I notice 1800 feet under the clouds a fine captive balloon and drop my eight bombs. General panic in the company. Several guns are fired at me. I rise up into the fog. Lost again. Dive down to see, and continue flight at 3000 feet. Up again among the clouds and give down to 2400 ft.

"I steady the machine and compass and take the direction S. W. I have an hour's petrol left. Swearing like a pickpocket. It's the limit. I don't know where I am and am fired at. I am 2400 ft. up. Up into the clouds. Down again. Note a rather large station. Am shot at. Up into the clouds again. Dive 26 minutes later and am again over the station. I'm like a roaring wild beast. Only 15 litres of petrol left. Don't know where I am; am shot at. I make up my mind, and am going to fly under the clouds at 2400 ft. S. W. till petrol gives out, despite shots.

"I note a village far off, and as I get nearer recognize Etain. I can use my lungs to breathe now. Saved! Good heavens, to think how mad I have been with rage. I dive with the motor at full speed. The wind is in my nose. I keep on wiping the glasses and break one, case and all. Pass over Etain at 1450 ft. still diving with motor at full speed.

"Reach Verdun in fog at 150 ft., and get hail and rain. Can see nothing. One of my eyes is hurting badly. Land. It's a splendid feeling after all. I can breathe now with my face to the wind and take in lungfuls of air. But I think how I have cursed. Another work. His activity, as shown by his lessons for me, and I shall keep my

### CHURCH NOTES

#### EPWORTH LEAGUE

The Epworth League of the Methodist church was presided over Sunday evening by G. I. Runyan of North Dixon. The topic was "A Prophet's Great Promise to Youth" and was discussed by Mr. Runyan in his usual scholarly manner. Some thoughts derived from the topic were that prophets of this day may be had and we have them, just as they lived with God, and influenced their nations in the years of the Testaments. All great men have been men of vision; for example, George Washington who freed a nation, and Abraham Lincoln who freed a race, and many others have, thru their visions accomplished great good in the world. Joel, the Prophet, advising youth tells them of visions they will see, and the necessity of working in youth for the greater accomplishment of good; that the vision to do the most good must be the best for mankind would be benefited.

Mr. Runyan is a veteran in the work of the young people societies; he has held official positions in the various local and state offices of the Epworth League of the Methodist church.

You will be welcomed to these meetings, held every Sunday evening at 6:30 o'clock.

Miss Bertha Bennett will have charge of the meeting next Sunday.

#### MEETINGS CONTINUE

The evangelistic meetings at the Grace Evangelical church will continue every evening this week with the exception of Saturday. There will be three cottage prayer meetings daily beginning Wednesday at 2:30 o'clock. The interest in these meetings is increasing. Rev. J. H. Keagle of Polo will preach at the service this evening.

INTERESTING SESSION OF R. R. VALLEY ORGANIZATION HELD IN DIXON.

The quarterly session of the Rock River Valley Ministerial association was held at the Christian church here today. The meeting opened at 10:45 with a paper by Rev. A. J. Holland of the Presbyterian church on "Lights and Shadows of the Gospel of St. John." At noon the 22 members present went to Grand Detour and dined at the Sheffield hotel, the trip being made in autos. They returned before 2 o'clock and Rev. E. C. Harris of Sterling read a paper on "Social Aspect of Life in India."

### TRUCK BLOWN IN FRONT OF TRAIN

Passenger Engine Demolished Truck At Northwestern Depot.

There was a small wreck at the C. & N. W. depot this morning at 12:30 and as a result there is one less truck at the depot. The wind started a baggage truck left on the platform and it ran onto the eastbound main track just ahead of passenger No. 10 which was nearly an hour and a quarter late. The engine struck the truck with sufficient force to reduce it to kindling and scattered the pieces about. It was fortunate no one was in the vicinity of the baggage room or they might have been struck by pieces.

### FIRE DEPARTMENT IN TWO RUNS SUNDAY

ANSWERED ALARMS FROM GOS-SARD PLANT AND DAUNT-LEER CIGAR STORE.

The fire department answered two calls Sunday, but in neither instance was the damage caused of much consequence. The first call was at 4:15 a. m. to the rear of the J. J. Dauntler & Son tobacco store. The fire was located in a small brick building that houses the gasoline engine and electric light plant, and started in oily waste in a corner of the building. The blaze was extinguished with a chemicals.

At 9:15 o'clock in the evening the department was called to the Gossard corset factory to put out a fire in some refuse that had been cleaned out of cars and set afire near there. The high wind blew sparks in all directions and neighbors became alarmed.

## BRITAIN STIFLES NEUTRAL RIGHTS

U. S. Note on Allies' Blockade  
Is Made Public.

DOESN'T RECOGNIZE VALIDITY

"United States Cannot Submit to Curtailment of Its Neutral Rights by Such Measures, Admittedly Retaliatory"—Language Severe, but Not So Threatening as on Lusitania.

Washington, Nov. 8.—The long awaited note to Great Britain on British practices interfering with American trade has been made public. In it the United States serves notice on Great Britain:

1. That it does not recognize as legal and effective the British blockade of Germany and Austria-Hungary.
2. That it "cannot submit" to the curtailment of its neutral rights by measures which are "admittedly retaliatory and therefore illegal."
3. That it "must insist" that the relations between it and the British government be governed not by a policy of expediency but by established rules of international law.
4. That it unhesitatingly assumes the task of championing the integrity of neutral rights and will devote its energies to that end.

The note as a whole is a vigorous denunciation of the British government for the illegality of its measures in regard to neutral shipping. "With out justification," "ineffective," "illegal," "indefensible" and "in violation of the law of nations," are some of this government's characterizations of the British practices.

### Differences from Berlin Notes.

Contrasted with the notes to Germany in the submarine controversy the communication to Great Britain, however, contains no phrases such as "strict neutrality," "will omit no word or act" and similar expressions used by the President in pressing his demands on Berlin. The note to the London foreign office is devoid of implications such as were contained in the German note, of drastic action by the United States in the event that the grounds of complaint are not removed. The note to Great Britain as viewed here, still shows this government at a loss for means with which to bring upon England any stronger pressure than that of diplomatic representations.

### Deals With Property, Not Lives.

That the note will be read in comparison with the communication to Germany and that it will be studied in Berlin for proof of partiality toward the belligerents is realized in official circles here. The administration holds, however, that it was impossible to address Great Britain in quite the same manner as Germany in the submarine issue for the reason that the latter controversy involved a question of human lives while the issues with Great Britain concern only property rights.

### Points Out Specific Cases.

The note contains more than 10,000 words. It includes among other exhibits a long list of neutral ships which have been illegally interfered with by the British. This list, with the details in each case, constitutes in effect, the indictment against Great Britain on which the note proper is based. The note groups the causes for protest by the United States under three heads. Under these are covered all the acts which are held to have infringed upon American trade rights. The three groups of offenses are:

1. The seizure and detention on the high seas on mere suspicion.
2. The so-called blockade policy.
3. The unsatisfactory and unacceptable character of the regulations governing and the procedure of British prize courts.

## GERMAN GIRLS ARE JAILED

Send Love Letters and Offers of Marriage to Russ Prisoners.

Berlin, Nov. 8.—Because they flirted with Russian prisoners of war Helene Kockert and Charlotte Wichmann, two German girls, have been sentenced to six and two months' imprisonment.

The girls made the acquaintance of two Russian noncommissioned officers in the prisoners' camp, and fell in love with them. Using children as messengers they sent photographs, love letters and offers of marriage until they were arrested.

### Twelve Bodies Identified.

New York, Nov. 8.—With twelve identified dead recovered and a renewed search being made of the ruins for the bodies of other victims, a report indicating that the fire, which swept the five-story factory building at 285-287 North Sixth street, Williamsburg, was of incendiary origin has become a matter of official investigation. Probably one other body is still in the ruins, the police think.

## AMERICAN TOOLS HELP TO FASHION SHELLS MADE FOR FRENCH ARMY.

SCENE IN FRENCH AMMUNITION FACTORY

[The terrific French artillery attack along the western front was made possible by equally unremitting and intensive effort in the production of projectiles in works which have been transformed by American machine tools and are working regularly twenty-four hours a day. One of these great establishments, near Paris, makes more than 6,000 shells and a number of aeroplane motors a day. The works there produced 90 automobiles annually before the war. In peace times material taken in at one end followed a regular progression until it came out at the other a finished car. The order of operations was different in shell making, so it was necessary to displace and rearrange 50 machines, install many new ones and at the same time find hands to replace a thousand mobilized mechanics. The picture shows a scene in a French ammunition factory.]

### NO. 173, Series of 1915.

#### NOTICE TO CONTRACTORS.

Sealed proposals addressed to the Board of Local Improvements and the Council of the City of Dixon, Illinois, and endorsed, Proposals for the furnishing of the labor and materials for and the construction of vitrified tile pipe sewer, for sanitary purposes, with manholes, house connection laterals and flushing tank in Ottawa Avenue in the City of Dixon, Lee County, Illinois, as provided for in Local Improvement Ordinance Number 173, Series of 1915, of said City of Dixon will be received by the Board of Local Improvements and the Council of the City of Dixon, Lee County, Illinois, at the City Clerk's Office in the City of Dixon, until ten o'clock in the forenoon, on Tuesday, the 9th day of November, A. D. 1915, and will be publicly opened by the Mayor of said City of Dixon, (who is the President of the Board of Local Improvements) at a joint meeting of said Council and Board of Local Improvements to be held in the Council Chamber in the City Hall in said City of Dixon at ten o'clock in the forenoon of said day.

Said bids shall be opened by the Mayor in the presence of a majority of the Council and shall remain on file in the Mayor's office and be open to public inspection for at least forty-eight hours, before an award of said contract is made to any competitive bidder. After the expiration of forty-eight hours, as stated above, said Council and Board of Local Improvements shall meet in joint session and determine the most advantageous bid for the City and publicly declare the same.

The work for which the said tenders are invited is the construction of 325.5 cubic yards of excavation; 333 cubic yards of probable rock excavation, extra; 960 linear feet of 8" sewer pipe laid; 576 linear feet of 6" house connection pipe, laid; 2 manholes, 3' inside, with cast iron covers and iron steps; complete; 1 flushing tank with cast iron top, flushing siphon, feed pipe with automatic cock and iron steps inside and outside lamp hole as provided for in Local Improvement Ordinance No. 173, Series of 1915 of the City of Dixon, Illinois.

Each bid for this improvement must be accompanied by certified check or cash for an amount not less than ten per cent of the aggregate of such proposals. All certified checks must be drawn on some responsible bank and must be payable to the order of the President of the Board of Local Improvements in his official capacity. No bids will be considered unless accompanied by such certified check or cash.

Said cash or certified checks will be held by said Board of Local Improvements until all the bids have been canvassed and the contract has been awarded and signed. The return of such check or cash to the successful bidder being conditioned upon his appearance within fifteen (15) days after having been notified of the award having been made to him or their accompanied by his or their bondsmen and executing a contract with said Board of Local Improvements for the completion of the work so awarded and giving a bond satisfactory to the Board of Local Improvements and Council of the City of Dixon.

A bond of Three Thousand Dollars will be required conditioned for the fulfillment of the contract in accordance with the ordinance and specifications and to the satisfaction of the said Board of Local Improvements

and Council of the City of Dixon.

All proposals must be made on blanks, which will be furnished bidders at said City Clerk's Office.

Payment for the work for which said tenders are invited is to be made in cash or bonds, payable when the contract is completed and the work accepted by the Board of Local Improvements and Council of the City of Dixon, bonds to draw interest at five per cent. No bids will be considered unless the party making it shall furnish evidence satisfactory to said Board of Local Improvements and Council of the City of Dixon of his experience and ability in this class of work and that he can control sufficient capital to enable him to successfully prosecute the same in case the contract shall be awarded to him.

Bidders will examine the ordinance, maps, plats, plans, profiles and specifications and also the locality in which said work is to be done and judge for themselves of all the circumstances and surrounding conditions affecting the cost and nature of the work. Specifications for said work are on file in the Mayor's office, and may also be seen at the Office of the City Clerk in the City of Dixon, from and after this date.

The person to whom the contract for the construction of said improvement is awarded, shall, before the commencement of work under such contract, provide ample, suitable and valid insurance policies to provide against and pay all claims for injury to persons or property arising under the laws of the State of Illinois, in the prosecution and construction of said work.

The Council and Board of Local Improvements reserve the right to reject any and all bids.

Dated at Dixon, Illinois, this 27th day of October, A. D. 1915.  
Signed, THE COUNCIL AND BOARD OF LOCAL IMPROVEMENTS OF THE CITY OF DIXON.

## LADIES! SECRET TO DARKEN GRAY HAIR

Bring back color, gloss and thickness with Grandma's recipe of Sage and Sulphur.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

## THE CHARM OF MOTHERHOOD

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## BABY IS ADMISSION "TICKET" \$5.00 GERMANS CAPTURED

One Thousand Women Attend Special Services on Motherhood.

Montclair, N. J., Nov. 8.—One thousand women, each with a baby in arms or leading a small child, attended a service in the Immaculate Conception church. The assemblage was intended as a protest against "race suicide." The service was one of a series marking the close of a two weeks mission conducted by Jesuit priests.

The fathers had announced that they would conduct a service especially for women and that admission would be by "ticket." The "ticket" it was explained, would be a baby. The married women of the parish who are not mothers were urged to bring the children of mothers who had more than one.

Mr. and Mrs. Curtis Rice visited friends in Sterling Sunday.

Petrograd Claims Two Successes at Different Points on Battle Line.

London, Nov. 8.—The capture of 8,500 Germans in the southwestern theater on the River Styrpa is reported by the latest official statement issued by the Russian war office. The statement tells of violent but futile efforts on the part of the Germans to wrest the prisoners from the captors.

Another Russian success is claimed by Petrograd in the fighting around Rafalovka, on the Kovno-Sarny railroad, where the Czar's forces took 22 officers and 712 men.

WETS PROVE SUNDAY  
LID IS A FINE THING

Chief Pride in Monster Parade Is "Nobody Drunk"

Chicago, Nov. 8.—The advocates of a closed Sunday assert that the claim of the wet parade held here Sunday was most unmitigatedly the strongest demonstration for the decency and efficiency of the dry Sunday that could have been made.

The parade, one of the largest ever held in Chicago for any purpose, passed into history without a single complaint against it brought to the notice of the police, and this is lauded by the wets as the outstanding feature of the demonstration. There were no arrests and 100 men held in reserve at the First precinct police station passed the afternoon victims of ennui or play-ed cards.

Acting Chief of Police Schuetzler, who reviewed a section of the walking military and turned delegations, was delighted with the behavior of the thousands passing east on Randolph street.

"They were quiet and orderly," he said. "None could have been better behaved. We were prepared for any emergency that might arise, but I was not surprised that there was no trouble."

PROPOSALS FOR CONCRETE TUNNELS AND ACCESSORIES AND STORM WATER AND SANITARY SEWERS AND ACCESSORIES.

STATE OF ILLINOIS.  
BOARD OF ADMINISTRATION.  
Springfield, Illinois, November 4, 1915.

Sealed proposals will be received by the Board of Administration in its office in the Capitol Building, Springfield, Illinois, up to three o'clock p. m., Monday, November 29, 1915, and then and there publicly opened for constructing concrete tunnels and accessories and storm water and sanitary sewers and accessories on the site of the State Epileptic Colony, near Dixon, Illinois.

The plans for the proposed tunnel work are shown in solid lines, and future tunnel work are shown in dotted lines. Bidders are to submit bids on all of the proposed tunnels only, including cast iron basins, man holes, vents, lamp bases, openings for pipe entrances, number of conduits in wall, pipe anchor inserts, pipe support inserts in wall, and pipe support inserts in wall.

Proposals will also be received at the time stated above for sanitary and storm water sewers, and tunnel drain connections, connecting the various buildings as shown on the plans and specifications.

Bids are to be submitted separately on the sewer work and tunnels, and bids are also invited on doing all sewer and tunnel work. Plans and specifications will be furnished upon application to Hon. James B. Dibelka, State Architect, 130 North Fifth Avenue, Chicago, Illinois.

The Board of Administration reserves the right to reject any and all bids.

Monday, November 15, 1915.  
20 Holstein Bulls 20

Quarantine regulations have for the past year prevented the shipment of breeding cattle from Illinois to other states, consequently we have accumulated these bulls. We are short of room for younger animals coming on, and must sell these older bulls. They will run in age from 12 months to 24 months. Most of them are by our great herd sires. They are the kind we usually receive from \$300 to \$500 apiece for at private sale. This is a chance of a life time to buy a splendidly bred bull at your own price.

A well bred Holstein bull bred to ordinary cows will produce heifers that on the average will give TWICE as much milk as their mothers.

There is an unlimited demand for grade Holstein cows at from \$100 to \$150 apiece.

No investment can be made that will pay such large returns as a good Holstein bull.

Remember we have bred and developed the CHAMPION HEIFER of Illinois. A number of her three-quarter brothers are included in this sale.

Buy good—breed better.  
8 Duroc Jersey Boars.

Free lunch at noon. Sale immediately after.

Terms: Cash or six months or one year's time on approved notes bearing 6 per cent interest from date.

ARE YOUR  
KIDNEYS WELL

MANY DIXON PEOPLE KNOW IMPORTANCE OF HEALTHY KIDNEYS.

The kidneys filter the blood. They work day and night. Well kidneys remove impurities. Weak kidneys allow impurities to multiply.

No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles, If you are nervous, dizzy or worn out.

Begin treating your kidneys at once. Use a proven kidney remedy. None endorsed like Doan's Kidney Pills.

Recommended by thousands. Proved by Dixon testimony.

W. Walford, blacksmith, Peoria Avenue, Dixon, says: "I used to have quite a lot of trouble with my back and kidneys. The kidney secretions were irregular in passage. My back ached, too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21st, 1912.)

NO TROUBLE SINCE. On January 21st 1915, Mr. Walford said: "I have had no kidney trouble at all for the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford had. Foster-Milburn Co., Props., Buffalo, N. Y.

### The BARGAIN COUNTER

Merchants to Their Patrons

### \$5,000 OR 100 ACRES TO BE GIVEN AWAY

To buyer of 100 acres under plow, of better than average good soil, for this section, with good set of improvements worth \$5,000, including 8 nicely arranged rooms, with concrete foundation and cellar to hold 1,000 bushels of potatoes. Large Hip Roof Barn with hay fork and litter carriers large machine sheds and other buildings, such as granary, corn cribs, etc., with windmill and tank.

Price \$100 per acre, 1-3 or more cash and at this price it is a better bargain than can be found between here and St. Cloud, but with it we give deed to 100 acres first class pasture and hay land, worth \$50.00 per acre. This is the most desirable 200-acre bargain in this part of the state. Come and see it.

### BEST MINNESOTA BARGAIN.

About 625 acres of the best land in this state as smooth as a floor and cut on the north by good river (full of fish), and cut on the south by big ditch, just completed, and this ditch is about eight feet deep and shows the best of good yellow clay clear to the bottom. The top soil is the best black sandy loam to be found in Minnesota. The water is pure, and never-falling well on the place, which is occupied by tenant. This farm is as smooth as the best of the Red River Valley it should not be confused with same, as this is near the highest point of land in the state.

There is fair house and also other buildings with some fenced in pasture and also some field in crop, and all the land desired for crop can be broken with tractor and as this is new land one crop of flax will pay for it at the bargain price of \$25 per acre.

Five thousand dollars cash will handle the deal and it is near direct line to Duluth, which is the best market in the Northwest.

**Wadsworth Co., Langdon, North Dakota, and 525-7 Temple Court, Minneapolis, Minn. 2621f**

**DAIRY FARM FOR SALE.** I have a 110 a. farm in Rock County, Wisconsin 10 miles from the Illinois line, 1/2 mile from village on two railroads, eight miles from Janesville and eleven from Beloit, that must be sold by December 15th. The best offer will get it. This farm is in the Million Dollar dairy, tobacco and sugar beet section and near the condensery, creamery and cheese factory. Level, good soil, woven wire fence and first class buildings, including ten room house, horse, cattle and tobacco barns, hen and hog houses, silo, etc., etc. \$5500 at 5 1/2 % may remain. Might accept some property as part payment. If you are willing to locate in the Wisconsin dairy belt and save \$50 to \$75.00 an acre over Illinois prices look this up. Address Lock Box C, Polo, Ill. 2621f

### ILLINOIS CAN'T AFFORD SESSION

State Has Not Funds for Extra Legislation.

CHICAGO ALSO IS HIT HARD

Injunction Suits Against State and City Tie Up Over \$1,000,000—Court's Ruling Revives \$800,000 in Appropriations That Gov. Dunne Pruned from Bills.

(Continued from Page 1)

gus action.

**Mayor Appeals to Dunne.**

Mayor Thompson and other city officers set up a cry for immediate action by the legislature and they urged Governor Dunne, who by reason of the court's decision in the Fergus suits was already considering the date for a special session, to take action that would bring about speedy relief.

Coming as it did so close on the heels of the decision holding appropriations of the legislature for several state purposes invalid, the supreme court's ruling in the Sergel case affecting city departments added greatly to the importance of the action Governor Dunne is expected to take with reference to calling the legislature in special session to correct the defects and cut the tie that holds up money intended for state and city purposes.

An interesting point in the ruling of the court is that it restores to legality over \$800,000 in appropriations that the governor had pruned from appropriation bills.

The court held that the executive was without power to veto parts of those appropriation measures which contained the items he disapproved.

### No Funds for Extra Session.

Springfield, Ill., Nov. 8.—Concerning his call for a special session of the legislature, Governor Dunne said:

"I have been urged to postpone the call until after Jan. 1. The state has no funds to pay for a special session, and if the members decided not to respond to a call we would have difficulty getting them together. There are lots of things to be talked over before I set the date."

The governor indicated that it was his plan to include in the call provision for an act that would prevent in future any small taxpayer going into court and tying up the state machinery without filing a heavy bond.

### CHARGED WITH HUGE FRAUD

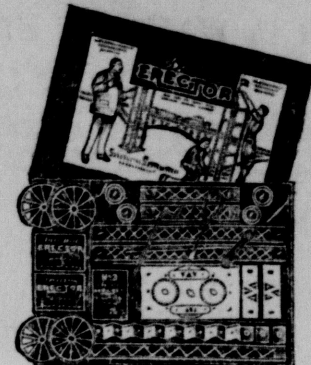

J. E. Foster, Former Chicago Violinist, Returned to Detroit.

Detroit, Mich., Nov. 8.—That J. E. Foster, former Chicago violinist and promoter, has obtained \$180,000 from business men whom he deluded with schemes for increasing their sales is the belief of federal authorities.

Following his departure from Detroit three weeks ago, when postal authorities raided his office, he was traced to Pennsylvania. He was brought back from Wilkesbarre, Pa.
